Kenner news

Very interesting. Largest settlement Kenner has ever entered into today with a company that was let go because they could not perform their contract according to all the complaints and emails from the residents.

I guess this is why

**Sidney Torres** Kenner settled 1.2 mil with Ramelli? Which is also the mayors largest political donor? If that's the case definitely would have changed my vote.

Sidney Torres that's a very bad look!! The way you guys handled the Ida cleanup should have won y'all the key to the city!! I have been a Jefferson parish resident (active voter) for the last six years dealing with several other garbage companies IV is by far the best one, the others really don't even come close!

Victor Moran I am humbly honored by your opinion of our company IV Waste.

We put our heart and soul into every job we take on.

It's crazy as we were not even looking to go to Kenner and we got a call Greg Buisson Who was then the political consultant for the previous mayor and majority of the council and said Kenner needs help they are having nothing but problems with their current garbage company Ramelli. He told me that they were expecting my call to set up a meeting.

We called the mayors office to set up an appointment.

The first meeting we went to I brought my attorney and everyone after that I brought my attorney.

They told us how they had issues with Ramelli not purchasing & replacing all the 25k carts the contact called for when he took it over 16 years ago.

They told us and the facility where the trees go also said that they never did recycle Christmas trees they always brought them to the landfill.

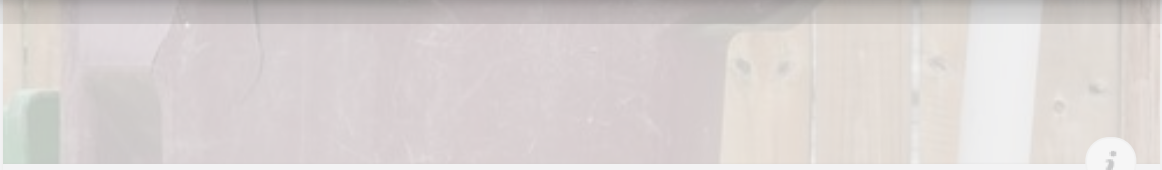

They also got caught billing for locations were they were other companies cans in the place of where they said they had their cans.

They also said they had problems with getting Recycling tickets as they were told that they were mixing the recycling and throwing it in the landfill.

When I had my old company SDT we bid on this contract and we didn't get it because we didn't hire someone even though we had the lowest bid.

I can't wait to expose all of this and the current situation that's going on with the new but old crew that make up this new administration.
