We need to go over this but effective next week we need to just tell the drivers to bring the truck back to the yard after Thursday as Thursday is the biggest day.

It could be worse as I was told we would be billed as follows:

\$165/ton plus
\$30/ ton to trans load into ROL cans
Plus \$580/ haul to BR

We removed 55.9 tons from Kenner in May, so the tonnage charge alone should be 9223.00 without the load and haul fee to Baton Rouge.

It appears as though they are only charging the haul to Baton Rouge fee for each time we dump a load there however I need to match the tickets to verify.

Moving forward, I feel like we should minimize the trips to the MRF until we find a better solution.

I will meet with CW Recycling in person next week with the intension of working something out with them. If that doesn't pan out, or we need to work on a compactor so we can haul it to Baton Rouge ourselves.
